MASTER LINE SOURCE 3

 SWISS HANDCRAFTED LOUDSPEAKERS SINCE 1986

PIEGA MASTER LINE SOURCE 3

The MLS 3 fits seamlessly into the noble series of master speakers. Like the MLS 2, the MLS 3 is a line source dipole loudspeaker. The MLS 3 was a challenging design and the result was the creation of several new technological innovations.

One of these innovations is the new compact design of the PIEGA LineSourceDriver (LSD) for the MLS 3 which embodies 30 years of know-how and experience in building highly complex and specialized ribbon drivers. Since the LSD is also a dipole, it is impressive in its dynamic, speed and wide-ranging sonic performance. The result, a musically convincing and an extraordinary listening experience with all genres of music.

PERFECTED BASS

Meeting the performance demands of the LSD of the MLS 3 a new 18 cm UHQD bass driver was designed to compliment its dynamics, speed and bandwidth.

The greatest challenge was optimizing this bass driver parameter, a small enclosure. This was met by designing the bass driver with the latest modern membrane materials, voice coil, chassis, and all moving parts in the suspension. This leads to a low bass response that is authoritative, precise, vivacious and harmonious integration with the LineSourceDriver.

MUSICAL FINE-TUNING

One of the unique attributes of the MLS 3 is its ability to be placed in a living room like a normal loudspeaker, however, as a dipole its position within a room can be quickly adjusted to play music whether it's 30 cm or 2 meters from a rear wall.

Shaped by our years of audio experience and perfected by intensive fine tuning and listening by our dedicated staff, the MLS 3 is a culmination of tonal beauty and fine design aesthetics. It is a loudspeaker with an enormous presence and conveys a truly magical audio experience.

MODEL	PIEGA MASTER LINE SOURCE 3
DESIGN PRINCIPLE	DIPOLE 3-WAY SYSTEM WITH ACOUSTIC LENS
RECOMMENDED AMPLIFIER POWER	20 – 500 Watt
SENSITIVITY	92 dB
IMPEDANCE	4 Ohm
FREQUENCY IMPEDANCE	28 Hz – 50 kHz
EQUIPMENT	4 x Line Source Drivers 111 2 x 18 cm UHQD basses 2 x 18 cm UHQD passive radiators
CONNECTION	Bi-Wiring/PIEGA multi-connectors
DIMENSIONS H x W x D	165 x 23 x 33 cm
WEIGHT	65 kg
DESIGN VARIANTS	<p>Baffle in silver anodised aluminium, cabinet painted silver, speaker cover silver.</p> <p>Baffle in black anodised aluminium, cabinet painted high-gloss black, speaker cover black.</p> <p>Baffle in white, cabinet painted high-gloss white, speaker cover white or black.</p> <p>Baffle in black anodised aluminium, cabinet in Zebrano matt veneer speaker cover black.</p> <p>Special design variants upon request</p>
